Product Description

Individually sterilized sealed for oral liquid med feeding

Multiple models for all your needs: each syringe is individually sealed, clean, safe and sterile, and can be applied for storage of essential oil, perfume, lubricants, sealants, etc; and its also suitable for the storage industrial inks, or as a tool for feeding animals

Precise scale, easy to use: each syringe is made of 100% standard food grade plastic, the corresponding calibration is engraved on the syringe tube to facilitate users to view or measure the residual amount of the solution

Application: Art paint; Household feeding; Liquid dispensing; Plant watering

Clear volume scale: The transparent cylinder has clear scale markings, the scales are attached to the side of the large plastic syringe to make them clearer and easier to read

Safe, durable material: The liquid measuring syringe is made of high-quality PVC material, is durable and safe.

Widespread use: The syringes are mainly used in scientific laboratories, experiments with glue dispensers, filling, feeding, industrial ink additives, precise application of perfumes

Comfortable design: The rubber plunger can stretch and compress smoothly and is easy to operate. it is easy to measure liquid accurately, which ensures the accuracy of use
