Product Description

Features:

- Allow for suctioning a patient on a ventilator without loss of PEEP or mean airway pressure.
- Reduce oxygen desaturation by allowing constant patient ventilation.
- Reduce the potential of infection to the clinician
- Maintains a sealed airway to reduce exposure to secretions.
- Eliminates patient "Spray Black"
- Provide maximum suction and is designed to reduce trauma.
- Enhance patient safety avoids disconnection from the ventilator during catheter change-out or untangling of lines.
- Decrease accidental extubation or decannulation during moving of the patient
- Color coded rings provide fast size recognition.
