- Material: Stainless Steel
- Origin: China
- Transport Package: Sterile Blisterpacking
- Coaxial Needle: With
- Highlight: **Medical semi automatic biopsy needle, 16G semi automatic biopsy needle, 16G disposable biopsy needle**

### More Images

## Product Description

### Versatile Application

The instrument can be used to biopsy various organs. It can be equipped with various needles for soft tissue biopsies of organs like liver, kidney, mammary glands, spleen, lungs, or lymph nodes.

### Portable Design

With small and light weight designing, it is easy to handle.

### Multiple Puncture Options

There are two available puncture depths, 16G×160mm and 18G×200mm, providing convenient clinical choices. It can also be equipped with a guided-probe for multiple sampling.

### High Success and Minimal Invasion

It provides a high success rate in punctures and complete samples. Special Trocar needle and sharp tubing ensure minimal invasion. The tubing has 5 side holes at the front end for multi-way collection of bone marrow, which is more efficient and less painful.

### Ergonomic Handle

It has a human ergonomics handle, making it comfortable and easy to operate. An extra needle is provided to ensure sharpness and less pain when multi-point invasion.
