Product Description

Product Description

Product features of prefilled flush syringe

Prefilled flush syringe is a high-end sterile flusher for clinical flushing and sealing of tubes, which can achieve the effect of real sage treatment and simple operation.

Built-in sterile flushing solution (0.9% normal saline).

Sterile locking ring design (to ensure that the liquid is not polluted during transportation and storage).

Screw design (needle-free connection to avoid needlestick injury).

Ergonomic barrel edge design (convenient for clinical operation)
